SUMMARY

Software Engineering honors graduate (GPA 4.55/5) and CAPM® certified, with hands-on experience in software development, data analysis, and BI dashboard engineering. Completed Digital Projects training at the Saudi Commission for Health Specialties through the Tuwaiq Academy program, and a COOP at Tahakom across the AI Academy and Technology Governance divisions building Power BI dashboards, cleaning large datasets, and supporting AI governance initiatives. Looking for technical roles in software or data engineering, with openness to related opportunities that use these skills.

EDUCATION

Bachelor's Degree in Software Engineering <i>Mustaqbal University, Al-Qassim</i> GPA: 4.55/5 “Excellent” with Second-Class Honors	Feb 2022 – Aug 2025
Technical Diploma in Network Technology <i>Technical and Vocational Training Corporation, Al-Qassim</i> GPA: 4.89/5 “Excellent” with First-Class Honors	Nov 2019 – Jan 2022

EXPERIENCE

Trainee – Digital Projects / Enterprise Architecture Division <i>Saudi Commission for Health Specialties (SCFHS) HQ Riyadh — nominated via Tuwaiq Academy</i>	Nov 2025 – May 2026
- Coordinated 3 strategic digital transformation projects under guidance from senior colleagues, aligning cross-functional technical teams and external vendors and helping resolve delivery/technical issues with implementing vendors to keep projects on track. - Analyzed an existing technical contract, flagged the risk in a report, and helped drive its termination in favor of an in-house solution saving SAR 3M. - Managed DGA (Qiyas) observations by structuring, assigning, and following up with relevant stakeholders to support compliance tracking. - Presented biweekly progress reports directly to the CTO across the 3 projects, covering completion percentages, task status, and risks tracked and managed user stories in Azure DevOps to support agile delivery. - Participated in vendor discussions and technical evaluations, supporting the identification of gaps and improving solution alignment.	
COOP Trainee – Technology Governance / AI Academy Division <i>Tahakom HQ Riyadh</i>	Jun 2025 – Nov 2025
- Designed and delivered two end-to-end Power BI solutions (Employee Data dashboard and Open PO dashboard) from prototype to production, later integrating both into a single BI portal used by the department consolidated data across 950+ employee records and 30+ source sheets, and cleansed a large-scale Open PO dataset. - Built an attendance-analysis pipeline in Excel covering an 8-month, 70,000+ row dataset, applied conditional logic to classify 5 violation types, and developed a companion Power BI dashboard and executive reports extended it to a full-year dataset with a drill-through page at the direct request of Executive Management. - Represented TAHAKOM in 8 Technical Clarification Meetings at PIF Tower (9+ hours), analyzing 1,250+ RFP responses from 7 leading vendors. - Analyzed an annual departmental budget and built a CAPEX/OPEX classification framework, later generalized into a guiding framework in collaboration with Asset Management. - Designed standardized Vendor and Consultant Evaluation Forms drawing on best practices and insights from prior vendor evaluations.	
Trainee – Network Technology <i>Secondary Industrial Institute Al-Qassim</i>	Sep 2021 – Dec 2021
- Provided IT support and assisted in classroom technology operations. - Configured computers, devices, and cabling systems for computer labs. - Installed and maintained operating systems (Windows, Ubuntu, and Linux distributions).	

PROJECTS

- PerformX – AI-Powered Project Management System (Web App, C#, OpenAI) — Bachelor's Graduation Project
- QassimPay – Digital Banking Platform (Web App, C#) — Mini-Term Project
- TODO – Task Tracker (Web App, C#) — Mini-Term Project
- Saudi Arabia World Cup 2034 – WSA34 (Web App, C#) — Tuwaiq Academy Project
- Snake Game – (Desktop Application, C#) — Mini-Term Project
- Email Bot for Bulk Company Communication using C# — (Desktop Application, C#)

COURSES AND CERTIFICATIONS

- CAPM® (Certified Associate in Project Management) – PMI, “Above Target in All Domains”
- AthkaU Program – SDAIA & Microsoft
- Generative AI Using Llama – Bootcamp, 120h (Tuwaiq Academy)
- Web Development Using ASP.NET Core MVC – Coding Bootcamp, 100h (Tuwaiq Academy)
- Laravel Full-stack Developer Bootcamp, 15h (Code lab Qassim University)
- Introduction to Cybersecurity (MCIT)
- Introduction to Artificial Intelligence (MCIT)

AWARDS

- Won 1st Place in the Software Engineering Readiness Exam – College of Engineering, Mustaqbal University (NCAAA)

SKILLS

- Technical:** C# & ASP.NET Core MVC | Power BI (data modeling, DAX, dashboard design) | SQL & Excel (advanced) | Generative AI / OpenAI integration | Data cleaning & analysis
- Project & Governance:** MS Project | CAPM-aligned project coordination | RFP/vendor evaluation | Risk management & governance documentation | Executive reporting
- Agile & Scrum:** Sprint ceremonies facilitation | Scrum Master | User story & backlog management (Azure DevOps)

RECOMMENDATIONS & REFERENCES

- LinkedIn Recommendations:** Written recommendations from my seniors and colleagues are available directly on my [LinkedIn Profile](#).
